prices are valid regardless of whether I perform the parts according to your design or freely.

all prices are meant as a reference point and are valid for standard-parts only.

extralong and complex parts are more expensive.

short and easy parts I can offer for less.

a mix consisting of only a few tracks(eg. a ballad, piano/vocals, no drums) can be had cheaper, too.

you always get a 10% discount when ordering the production of an entire song

(comprises of at least 6 items including mix and mastering).

graduated pricing when producing and/or mixing/mastering multiple songs is possible as well.
